

GENERAL ASSEMBLY

COMMONWEALTH OF KENTUCKY

2010 REGULAR SESSION

HOUSE BILL NO. 215

AS ENACTED

THURSDAY, APRIL 1, 2010

RECEIVED AND FILED
DATE April 12, 2010
4:35pm

TREY GRAYSON
SECRETARY OF STATE
COMMONWEALTH OF KENTUCKY
BY R. Adles

AN ACT relating to natural resources.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

1 ➔ Section 1. KRS 146.415 is amended to read as follows:

2 As used in KRS 146.410 to 146.530:

3 (1) "Natural area" means any area of land or water, or of both land and water, in public
4 or private ownership, which either retains, or has reestablished to some degree in
5 the judgment of the commission its natural character, though it need not be
6 completely natural and undisturbed, or which has natural flora, fauna, biological,
7 ecological, geological, scenic or archaeological features of scientific, aesthetic,
8 cultural or educational interest;

9 (2) "~~Nature~~~~Natural~~ preserve" means a natural area, and land necessary for its
10 protection, any estate, interest or right in which has been formally dedicated under
11 the provisions of KRS 146.410 to 146.530 to be maintained as nearly as possible in
12 its natural condition and to be used in a manner and under limitations consistent
13 with its continued preservation, without impairment, disturbance or artificial
14 development, for the public purposes of present and future scientific research,
15 education, aesthetic enjoyment and habitat for plant and animal species and other
16 natural objects;

17 (3) "Articles of dedication" means the writing by which any estate, interest or right in a
18 natural area is formally dedicated, as provided in KRS 146.410 to 146.530;

19 (4) "Commission" means the Kentucky State Nature Preserves Commission;

20 (5) "System" means the state system of nature preserves established under KRS
21 146.410 to 146.530;

22 (6) "Cabinet" means the Environmental and Public Protection Cabinet;

23 (7) "Director" means the director of the Kentucky State Nature Preserves Commission.

24 ➔ Section 2. KRS 350.130 is amended to read as follows:

25 (1) When any of the requirements of this chapter or administrative regulations adopted

1 pursuant thereto or the orders of the cabinet have not been complied with, the
 2 cabinet shall forthwith cause a notice of noncompliance to be issued upon the
 3 permittee, person, or operator. The cabinet shall set forth in its notice a reasonable
 4 time period but not more than ninety (90) days for the abatement of the violation. If
 5 any permittee, person, or operator has not abated the violation within the time
 6 prescribed in the notice of noncompliance, the secretary or other authorized
 7 personnel of the cabinet shall issue to the permittee, operator, or person an order for
 8 immediate compliance and cessation of any mining activities or operations which
 9 are contributing to the violation. The order shall require the permittee, person, or
 10 operator to abate the violation in the most expeditious manner possible. The
 11 secretary is authorized to promulgate reasonable administrative regulations for the
 12 implementation of this section. The notice or order shall be handed to the person in
 13 charge of the operation[,] and the operator or person engaged in coal exploration
 14 operations or sent by certified mail, return receipt requested, addressed to the
 15 permanent address shown on the application for a permit; or by electronic mail to
 16 the address shown on the permit application or otherwise voluntarily provided to
 17 the cabinet by the permittee on a form prepared by the cabinet; or, if no address is
 18 shown on the application, then by certified or electronic mail to the address known
 19 to the cabinet. The notice of noncompliance or order for immediate compliance and
 20 cessation shall specify in what respects the permittee, person, or operator has failed
 21 to comply with this chapter or the regulations or orders of the cabinet and the
 22 remedial action required, the period of time established for abatement, and a
 23 reasonable description of the portion of the surface coal mining and reclamation
 24 operation to which the notice or order applies. If the permittee, person, or operator
 25 has not reached an agreement with the cabinet or has not complied with the
 26 requirements set forth in the notice of noncompliance or order for immediate
 27 compliance and cessation within time limits set therein, the permit may be revoked

1 or the operation terminated, after an opportunity for a hearing, by order of the
2 cabinet, and the performance bond, if any, shall then be forfeited to the cabinet,
3 provided that failure to attend a hearing shall be excused for good cause shown.

4 Any bonding company or financial institution providing bond to the cabinet shall
5 have the right to perform those measures necessary to secure bond releases if the
6 bonding company or financial institution can demonstrate that it has the ability to
7 perform the measures and will undertake to do so within a reasonable time frame.

8 The bonding company, or financial institution providing the bond, may, at any stage
9 of the reclamation process, pay the remaining encumbered balance of the bond and
10 thereby discharge its obligation under the bond. Neither the surety company nor the
11 financial institution may employ anyone to perform the measures who has been
12 barred from mining pursuant to the provisions of this chapter.

13 (2) When a bond is forfeited consistent with the provisions of this chapter, the cabinet
14 shall forfeit the entire amount of the bond for the permit area or increment.

15 (3) A permittee, operator, or person whose mining permit or operation has been
16 revoked, suspended, or terminated or is at the time of the application in violation of
17 this chapter or other applicable requirements as set forth in KRS 350.085 shall not
18 be eligible to receive another permit or begin another operation or to have
19 suspended permits or operations reinstated until he shall have complied with all the
20 requirements of this chapter or submitted proof satisfactory to the cabinet under
21 KRS 350.085 that the violation has been corrected or is in the process of being
22 corrected in respect to all permits issued him, provided, further, that no permittee,
23 operator, or person shall be eligible to receive another permit or begin another
24 operation who has forfeited any bond unless the land for which the bond was
25 forfeited has been reclaimed without cost to the state or the permittee, operator, or
26 person has paid such sum as the cabinet finds is adequate to reclaim the lands. The
27 cabinet shall not issue any permits to or allow future operations by any permittee,

1 operator, or person who has demonstrated a pattern of willful violations of this
2 chapter of such nature and duration with such resulting irreparable damage to the
3 environment as to indicate an intent not to comply with the provisions of this
4 chapter, provided that no permit shall be denied on this basis without an opportunity
5 for a hearing. The secretary shall promulgate regulations which implement this
6 section. For the purposes of this section, if a corporate permittee has demonstrated a
7 pattern of willful violations, then any subsequent application for a permit by that
8 corporation, or any person who controls or has controlled that corporation, shall be
9 denied.

10 (4) In the exercise of the secretary's enforcement powers and authority under this
11 chapter, the secretary, or an authorized representative of the cabinet, after
12 inspection, shall immediately order the cessation of the condition or operation when
13 he determines that the condition or operation creates an imminent danger to the
14 health or safety of the public or that the condition or operation is causing or can
15 reasonably be expected to cause significant imminent environmental harm in
16 violation of this chapter or the regulations pursuant to this chapter, or any permit
17 condition. For purposes of this subsection, "imminent danger to the health and
18 safety of the public" means the existence of any condition or practice, or any
19 violation of a permit or other requirement of this chapter in a surface coal mining
20 and reclamation operation, which condition, practice, or violation could reasonably
21 be expected to cause substantial physical harm to persons outside the permit area
22 before the condition, practice, or violation can be abated. A reasonable expectation
23 of death or serious injury before abatement exists if a rational person, subjected to
24 the same conditions or practices giving rise to the peril, would not expose himself
25 or herself to the danger during the time necessary for abatement.

26 (5) Each provision of this section shall be interpreted and applied consistently with due
27 process of law.

1 (6) The secretary, or authorized representatives of the cabinet, shall have the power to
2 vacate, amend, modify, or terminate notices of noncompliance and cessation orders,
3 pursuant to administrative regulations promulgated by the cabinet.

4 **(7) Service of any notice or order by electronic mail shall be effective upon delivery**
5 **of the notice or the order to the recipient's inbox by electronic mail as**
6 **electronically communicated to the cabinet by an electronic registered receipt.**
